SUMMARY

AI Engineer and Tech Lead building Generative AI, Retrieval-Augmented Generation (RAG) and machine learning systems end to end, from prototype to production, with evaluation, MLOps and security built in.

EXPERIENCE

Tech Lead & AI Engineer | Reker Tech Solutions, Arrecife, Spain (hybrid) Jul 2026 - Present

- Lead architecture and delivery of custom platforms, from surgical logistics in daily use at a hospital supplier to a NIS2-aligned threat exposure platform.
- Built SafeWork AI, a GenAI compliance platform piloted with 3 companies: switchable LLM layer, hybrid RAG, guardrails and a 22-scenario evaluation suite.
- Cut p50 latency from 18.1 s to 0.9 s by fine-tuning a 4B Qwen model (QLoRA + DPO); the evaluation suite caught a recall gap before rollout.

Junior Software Developer | Icod Systems, Santa Cruz de Tenerife, Spain (hybrid) May 2025 - Jul 2026

- Applied open LLMs (TinyLlama, Zephyr) to document classification in Spring Boot microservices on AWS.
- Led the company pilot of an AI workflow-automation platform.

Data Science Intern | Astican (shipyard), Las Palmas de Gran Canaria, Spain Oct 2024 - Dec 2024

- Built Power BI dashboards on SQL Server for operational KPIs and automated workflows with Power Apps.

PROJECTS

RAG Canarias: Retrieval-Augmented Generation over Cultural-Heritage Sources | BSc thesis 2026

- Built an end-to-end RAG pipeline (crawler, chunking, Qdrant, FastAPI) with source-cited answers: 100% Recall@5 and MRR 0.82 on a 50-question automated benchmark.

City2Cruise: Reinforcement Learning Dispatch with Production MLOps | MSc thesis 2026

- Trained a PPO agent that beats the production heuristic by 16.7% and cuts missed deadlines by 31.7% (1,000 held-out episodes), shipped behind an MLflow promotion gate with drift detection.
- Added a blockchain-style custody ledger (ECDSA, hash chaining, 2-of-3 quorum) and CI/CD security gates.

EDUCATION

MSc in Artificial Intelligence | Universidad Internacional de La Rioja (UNIR) Oct 2025 - Present

BSc in Data Science and Engineering | Universidad de Las Palmas de Gran Canaria (ULPGC) Sep 2020 - Jun 2026

Erasmus Exchange, MSc Artificial Intelligence | University of Bologna, Italy Oct 2022 - Jul 2023

CERTIFICATIONS & AWARDS

Certifications: Databricks Generative AI Fundamentals; Architecting Solutions on AWS; Cambridge C1 Advanced

Awards & Publications: Semifinalist, NTT DATA Foundation eAwards Spain 2026, with SafeWork AI; article on AI adoption in SMEs, Tax Legal Advisory Review (2024)

SKILLS

Languages & Frameworks: Python, TypeScript, SQL, Java; FastAPI, Spring Boot, React

Generative AI: LLMs (Claude, Qwen, Llama), RAG, hybrid search, Qdrant, QLoRA, DPO, LLM evaluation, guardrails, Hugging Face, LangChain, Ollama

ML & MLOps: PyTorch, TensorFlow, scikit-learn, reinforcement learning, NLP, MLflow, Docker, CI/CD, Terraform

Data, Cloud & Security: PostgreSQL, AWS, Power BI, end-to-end encryption, ECDSA

Languages: Spanish (native), English (C1), French (B1), German (B1), Italian (A2)
